Soil Amendments

Blended Compost - An excellent soil amendment, providing the nutrients needed for plant growth while loosening hard clay soils. Blending reduces clumping and improves material flow for easier application at landscape site.

Mushroom Compost - The high nutrient values are excellent for inducing plant growth and health, while the structural characteristics are ideal for loosening and improving the heavy soils.

Leaf Mulch - Leaf mulch conditions the soil, improves water retention, and provides a home for earthworms and beneficial microbial activity. Dark brown in color, ideal for perennial gardens.
